SPECIAL BUY

24 x 1 1/2 | 540 x 32 | Michelin High Pressure Heavy Duty Grey | 35-02-242 | $9.99 PR |

24 Inch Tires—Fits Quickie, Quadera Stainless, E & J Nylon wheels and most other chairs. Does Not fit E & J spoked wheels.

NOTE: If your tire size is not listed, please call and let us assist you.

TUBES

NOTE: “Four” tubes fit all sizes of 24” pneumatic tires.

Metric Size Description Part No. Price
137 x 32 Michelin Heavy Duty Bent Valve Tubes | 39-00-080 | $9.99 PR |
200 x 44 Michelin Heavy Duty Bent Valve Tubes | 39-00-080 | $9.99 PR |
200 x 47 Michelin Heavy Duty Bent Valve Tubes | 39-00-080 | $9.99 PR |
202 x 1 1/2 Valor Thorn Resistant Tubes | 39-00-080 | $9.99 PR |
202 x 1 1/2 Valor Heavy Duty Bent Valve Tubes | 39-00-080 | $9.99 PR |
24 Inch | 39-00-080 | $9.99 PR |
24 Inch TR | 39-00-080 | $9.99 PR |

NOTE: 24” tubes fit all sizes of 24” pneumatic tires.

VALOR SEMI PNEUMATIC TIRES

FORGET about flat and changing tires. Valor semi-pneumatic tires last 4 times longer than pneumatic tires. Ultra-lightweight grey urethane surrounds an air-core providing a comfortable, long lasting tire. No air pumping required.

<table>

CAT EYE

Mate $34.95

Ideal for Everyone From the Active Athlete to the Casual User!

Hi Tech Computer. Measures speed, distance, time, trip time, trip distance and average speed. Part No. Price
24 x 1 1/2 78-00-000 | $24.95 |

NOTE: All computers work only with spoked wheels. They do not work on May or Mag style wheels.

WHEELS

Now you can replace your worn, beat up wheels... quickly and easily. Just remove the axe nut and new wheels slide on. Tighten axe nuts and you’re ready to roll.

Please specify axe size when ordering wheels.

Mag Wheels:

Stop worrying about out of true wheels and broken spokes. Super strong 24” Magnesium wheels won’t rust or corrode. They come complete with precision ground bearings, chrome handrails, grey pneumatic tires and tubes.

CASTERS

Replace your worn out casters with our super strong nylon wheels.

Complete with precision ground bearings. Simple to install. Just remove axle nut from front fork, slide out axle and remove caster. Replace with your new caster, insert axle and tighten nut.

Please specify axe size when ordering.

GLOVES

In a short period of time, we have become the #1 glove source in the market. We sell the highest quality gloves with soft top wearing cowhide and 100% washable hand crocheted cotton back. The Velcro® closure makes them easy to put on and take off. Both thumb and palm are padded and reinforced in high stress areas.

Before you choose a life line, make sure it does what you need it to do.

A critical moment is not the time to think about the quality and dependability of your life support equipment. You need to know that what you have is the best that's available. At Bear, we're committed to providing you with the best in every product we manufacture.

The BEAR '33 Volume Ventilator is the result of such commitment. Its unique features make it the best support wherever you need it. We've incorporated a brushless DC motor to eliminate brushes that wear out. We've also provided a tamper resistant panel that automatically relocks to avoid accidental changes to settings. And because the panel is completely sealed, it's splash resistant.

It's the first digital portable ventilator, so it's easy to read, while single-function soft keys make it easy to use. Under normal operating conditions, the alarm windows are blank; they alert you to a condition only when it exists, providing an effective troubleshooting aid for a focused response.

Additional features include 3 modes of ventilation, an O₂ accumulator for enriched oxygen delivery, PEEP compatible 0-20 cmH₂O, and three sources for power.

After you've chosen the best equipment, you need to maintain it. We provide you with a national network of service professionals specially trained to keep Bear products fine tuned. And we build in features that make upkeep more efficient. The BEAR '33 Ventilator has a visible hour meter to indicate when it's time for preventive maintenance; a removable cover that allows easy access; and a pneumatics assembly which can be removed as a single part.

And our support continues with extensive training manuals that help your patients and their families make the transition from hospital to home. The three-manual set has excellent graphics and special training aids which answer the questions of every family.

The BEAR '33 Volume Ventilator... when you need a life line, there's no room for compromise.

Announcing 3 Major Breakthroughs in Ventilator Equipment From LIFECARE

17 District Offices for Local Support and Service
People who depend on LIFECARE equipment are never without support because it's always nearby. LIFECARE's unique district offices allow us to respond to dealers, hospitals, therapists, and patients with fast, accurate support and service. Our technical professionals are available day and night to provide expert service and maintenance for the entire line of LIFECARE products.

In-House Staff of Medical Professionals
LIFECARE is the only ventilator equipment manufacturer with a staff of medical professionals on-call, 24 hours a day. Every district office has one or more therapists—medical professionals who understand patient needs and how LIFECARE equipment can help. Inservices, product information, training and patient set-up, are just a few of the services our therapists provide.

Local Inventories of Parts and Equipment
Equipment, replacement parts and loaner units are available from LIFECARE within hours, instead of the usual days or even weeks. Rapid access to our inventory network at 17 district offices eliminates the need for dealers and hospitals to maintain expensive inventories of backup equipment and replacement parts.

LIFECARE. From People Who Care.
