

# ***"It's Your Choice"***

**A new 26-minute educational video tape  
for people facing the ventilator decision**

**"It's Your Choice"** was developed to assist people with careful decision making when they are facing possible respiratory failure. It objectively presents both sides of the home ventilator issue and reviews available options.

Produced, directed, written and edited by Ismail Tsieprati, a filmmaker who uses a ventilator 24 hours a day, this video includes the viewpoints of two people with neuromuscular disease, one who has been using a ventilator at home for the past 17 years, and another who has decided not to use a ventilator should respiratory failure develop.

Edward Anthony Oppenheimer, M.D., Chief of Pulmonary Medicine at Kaiser Permanente Medical Center, Los Angeles; Associate Professor of Medicine at the University of California, Los Angeles; and Director of Kaiser Permanente's Regional Home Ventilator Pilot Project, is the medical advisor and host for the video.

To order a copy, return the order form below with a check or money order for \$19.95 (price includes tax, handling and shipping).
