

Follow-up Activities

Because STAY WELL! is a new program, it is essential to seek feedback on it. The following pages contain actual evaluation forms that may be photocopied and handed out to program participants, facilitators and organizers. These forms should be useful for short-term as well as long-term review. Please feel free to modify the forms so they answer the questions that are most relevant to your group.

ORGANIZERS' LONG-TERM FOLLOW-THROUGH SURVEY

This could be a telephone survey or a mailed questionnaire. Its purpose is to follow up six months to one year after the program to see if participants have followed through on STAY WELL! practices.

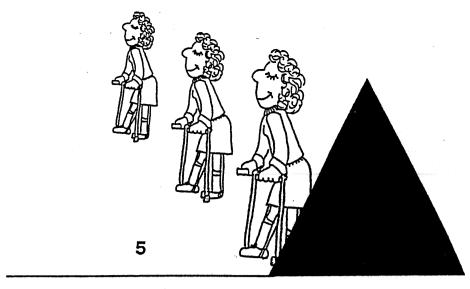

Participant's Name:	
Street Address:	
City, State and Zip Code:	
Telephone Number(s):	
Date:	
1.	Are you practicing the exercises that you learned in the exercise unit?
2.	Have you followed through on any other practices that you learned in the Stay Well! program?
3.	If yes, which ones?
	Do you feel better?
	Have you noticed changes? If yes, what?
	What has motivated you to continue long-term with this practice?
4.	If you haven't followed through, why not?
	What would be effective in helping you to follow through?

Long-Term Survey--page two

5. Looking back, please comment on the value of the *Stay Well!* program for you.

6. What recommendations would you make to future program facilitators and organizers?

THANK YOU!

Conclusion

Progress happens slowly as caring people make firm commitments to one another and, with clear vision, begin to take action. This conclusion is an invitation to all readers of the STAY WELL! manual to use the ideas it presents in order to be part of the forward-moving solution for polio survivors' good health and long-term wellness.

There is hope and there is help. We can stay well as we age with the effects of polio. That positive vision starts here. That reality starts now. They belong to us. May we advance together and sincerely enjoy the process.
